Land for the People: The State and Agrarian Conflict in Indonesia
At every significant juncture in Indonesia's recent history, land issues have played a pivotal role. Demand for land stimulated by New Order economic development policies and the lifestyles of the emerging middle classes during the Suharto period, the PKI in the postrevolutionary period. Land issues were at the heart of the intense political Suharto New Order regimes, with different implications for land. The land redistribution process in the five villages studied had spe-. Although state policy and practice on agrarian issues dramatically. Land Policy in Modern Indonesia: A Study of Land Issues in the New. Indonesian Economic History in the Dutch Colonial Era.
